He has never lost a game in his career. v.

Sample

✧ **Where do you usually watch TV programmes / shows? [Why? / Why not?]**

Actually, I often watch TV shows at home with my family since it is an efficient way to release the pressure after a day of hard work. Besides, it also allows us to talk and get to know more about each other, I cannot think of a better way to strengthen the relationship.

👉 小方法 **1-主次法**

● 主次法

1) What's the most attractive part of your hometown?

当出现并列关系的内容时，用 一主一次法 或 两主法 （老师推荐两主优于一主两次）

p.s. 并列关系内容不需突出重点，并列内容不宜过多

Sample：

I’m crazy about the people of my hometown who are quite friendly and enthusiastic. They are always willing to help the tourists to solve all kinds of problems and make them feel like home in a strange city. What’s more, the local cuisines are extremely hard to resist as well.

2) What kinds of job did you want to do when you were a child?

Answer: Job

Further Information – Reason: Interests

Money

Parents' influence

Social status…

Sample:

Well, it must be being a teacher. The main reason is that my mother was a teacher and she had a huge impact on my life, I always wanted to be someone like her. In addition, it is quite a well-paid job in China, which enables me to take care of my family and have a better living standard.

小方法 2-举例法

举例法

What tourist attractions are there in your hometown?

Find a key word !

What kind of word is it?

Plural noun

复数名词：举例法 -- 举多例，挑一例

p.s. 举多例是出于逻辑考虑

挑一例是出于结构考虑

✧ **What tourist attractions are there in your hometown?**

There are many beautiful attractions in my hometown like the Red Hill Park, the International Grand Bazaar and the South Mountain. Actually I go to the South Mountain the most with my family and friends since it is an ideal place for hiking, climbing mountains and riding horses.

✧ **What is your favourite colour?**

Actually I'm fond of many colours such as grey, blue and red. Among them, when it comes to clothes, my favourite one must be grey. Because it doesn't

get dirty easily so that I don't have to wash it everyday. What's more, I think grey makes me look fit as well.

小方法 3-前中后法

前中后法

What would you like to change in your hometown?

What should be changed:

Traffic

Education

Environment

Employment

…

当出现问题类内容时，用

前中后法

问题发生前 – 原因

问题发生时 – 造成现象

问题发生后 – 解决方式

- **Traffic**

Reason: Higher living standard

Cause: Traffic jam – Rush hours

Traffic accidents

Air pollution

Solution: Take more public transport / Buses / BRTs / Subways

✧ **What would you like to change in your hometown?**

I think the traffic problem should be improved in my city. You know, nowadays, people have a higher living standard and almost every family has a car, which causes situations like traffic jams during the rush hours, more accidents and severe air pollution. I believe the best way to solve this problem is encouraging people to take more public transport such as buses, BRTs and subways.

Is there any change you think need to make to the park you often visit?

What should be changed:

Parking lot

Price

Traffic

Facilities

…

- **Parking lot**

Reason: Too many cars

Limited parking space

Cause: Wait in line

Waste of time

Kill the mood

Solution: Underground parking area

✧ **Is there any change you think need to make to the park you often visit?**

It must be the parking lot of that park. There is not enough space for everyone to park at the same time, it is always common to see people waiting in line outside the park and blocking the traffic. Besides, all the waiting can kill the mood easily. I think the government should spare certain amount of money to build an underground parking area so that people don't need to waste their time on finding a spot for their cars.

小方法 4-正反验证法

正反验证法

Do you think it is important to choose a subject you like?

Subject: 单数 – 专业

复数 – 学科

A or B: Yes

当出现二选一类内容时，用 正反验证法

不是 Yes 和 No 都要讨论

正面： 选一个自己喜欢的专业有多好

选一个自己不喜欢的专业有多糟糕

✧ **Do you think it is important to choose a subject you like?**

✓ Interest / Work hard / Sacrifice / Worthy

✓ Difficulties / Keep on / Overcome / Quit in the middle

✓ Grade / Confidence / Motivation / A positive cycle

Definitely! Learning something that I'm interested in means that I'll be willing to work hard and sacrifice my leisure time for it. Besides, I can always get good grades in this subject, which give me enough confidence and motivation to do better later on. However, if I'm not fond of my major, it will be easy for me to give up whenever I face some difficulties during the process.

✧ **Do you think parents should teach children to save money?**

✓ Good habit / waste / understand the hardness

✓ Self-discipline / routine / life-style

✓ Ability of planning / spend money reasonably

Sure. I think it is an effective way to help children to understand the hardness of making money and money should not be wasted on something unworthy. Moreover, parents can teach their children to be self-disciplined and form a regular life style by teaching them to save money. Nevertheless, children who don't save money might not be able to spend money reasonably.

👉 小方法 **5-中立法**

中立法

Do you like meeting new people?

YES or NO

没有原则性偏向

当出现无法站边时，用 中立法

两边都做相应讨论

两边讨论都不充分

救命稻草，不要频繁使用

✧ **Do you like meeting new friends?**

Well, it depends. If we have a lot in common such as music, movies and sports, I would love to make some new friends. However, if there is a world of difference between us, it can be quite awkward when we talk or do things together, I guess I'm not totally sure actually. Like I said, it really depends.

✧ **Do you like travelling?**

LIKE or DISLIKE

Different situation:

With people

Alone

Actually, it’s kinda hard to say. I would love to visit some beautiful places with my family and friends. I think it’s a nice way to strengthen our relationship and get relaxed. However, travelling alone will never be an option for me, I’d rather stay at home and just watch some movies to kill time.

Part2 考试内容介绍

Part 2: Individual Long Turn

(1) 3-4 minutes

(2) 1 minute to prepare：最好在这一分钟内试着写短语和可能会想不起来的词

(3) 2 minutes to talk

(4) 4 types of topics：人物类，地点类、事件类、物品类

我的备考建议：

虽然有老师会说 P2 的问题不需要完全按着卡片提示的小问回答，但是保险起见还是把该答的点都答到（可以自己拓展其他内容，最好还是不要少答），顺序可以不按着问题的顺序，可以自己组织成一个合乎逻辑且完整的故事。如果考场上实在不会答的可以跳过，因为和写作不同的是口语没有 Task Response，不用过于担心跑题的问题。

每季度 P2 的题目是来得及全部准备一遍的，但是千万要避免背诵痕迹，我个人不建议完全按答案去背。市面上口语答案和素材很多，但只适合作为参考，在缺思路灵感的适当借鉴，修改成合适自己的故事，这样说起来也更顺，建议每天准备一点，可以录音检查练习成果。

关于串题：市面上很多卖的好的素材都在争取用最少的故事把所有题目串一遍，让大家用最少的时间准备好口语，但完全按这种准备可能经常出分就是 5.5. 我个人建议串题是可行的，但是不要为了少背素材强行串题。因为每个题目都有自己的关键词和着重点，串题的同时也要扣题，我们需要对串联的素材修改并突出重点，尤其是串题的回答一定要反复扣题。因为考官知道很多人会提前准备答案，也比我们更熟悉题库和各式各样的回答，牵强的串题很容易被考官发现这是提前背诵好的回答，这种就是低分。

P2 答题的基本策略：

- Give a full introduction
- Start with a point that you feel you can say the most about
- Make comparisons
- Make a concession
- Speculate on something
- Refer back to what you have said before
- Use the prompts

◎ 如何开头：Give a full introduction

- 不太熟悉话题时，可以用以下方式开头

  Normally, I'm not the kind of person who ….

  To be honest, I have never…, but I guess I can talk about the time when ….

- 比较熟悉话题时，可以用以下方式开头

  When it comes to …, the first thing that came to my mind was….

  Actually, …, so it's quite hard for me to decide what to choose.

  Funny you should give me this topic,….

◎ 如何展开

- Pick a point 找一个点

  I think I'll first tell you ….

  Let me start with ….

- Make comparisons 作比较

  Compared to/ with …,

  not as…as…

- Make concessions 作让步

  Although…

  I wouldn't say …, but

- Speculating 作推测

  As far as I know, …

  If … did …, …would

  If … had done …, would have done…

  If … were to …, would …

◎ **没话说了怎么办**

- Refer back 回顾说过的

  As I mentioned earlier, …

  As I said before, …

  在回顾之前说过的内容时，请注意不要原封不动再把说过的话重说一遍，而要使用一些同义替换。

- Use the prompts 使用提示

  Speaking of…/ Talking about …,

  When it comes to …,

  Moving on to …,

  In terms of …,

  Now explaining…,

人物类话题 sample answer

✧ A good parent

There are many decent adults that I admire in my family, and my father is surely one of them. The impact he had on my life is like no other.

He is quite tall and buff. Even though he is more than 50 years old, he looks younger than his age, and the warm smile is always telling others the approachable character ofmy father. He is the most warm-hearted person that I have ever known, he always tells me to be a kind man and never treat others with wicked intentions, even when I'm treated in that way.

Well, me and my father have a loving relationship with each other, we are more like friends than father and son since we have a lot in common such as music, sports, chess and stuff. We sometimes play chess together after dinner, he is truly a master, I have never beaten him even once.

The main reason that I think he is a qualified parent is that he has a positive influence on my attitude towards life. I used to be so spoilt and self-centered, never cared about anyone or anything. And I had almost no friends during my childhood basically because of that. However, he taught and helped me to correct the weak link in my personality and I treat the people around me with love and patience at present.

Even though I can't spend time with my father as much as before due to my occupied schedule, the impact he has on me is going to last till the end of my life.

✧ A famous person

Well, when it comes to the famous person I adore, Michael Jackson absolutely deserves a mention. He was one of the most well-known singers in America, and I got to know him from one of his songs called “Beat it”, I found him talented at the first sight.

Michael was pretty good looking I think, he was tall, he’s got long curly hair and a very well-shaped body. He always got that beautiful smile on his face which made him quite approachable to people. He was called “the king of pop” for a long period of time basically due to the achievement he had made in his career. His excellence in music had been recognized by the public, as a result of which, his albums were commonly found in every single album store from the 80s till now since he seemed to be a hit with all the music fans.

Apart from the success he had in the professional field, the main reason that I regard him as a role model is the fact that he always spread positive energy to the whole world, no matter through his music or actions. He cared a lot about the people who were in serious suffering, especially when he helped those poor people in Africa and built some schools for the children there, it truly moved me a lot.

Unfortunately, Michael passed away 10 years ago, and I still remember that I just couldn’t believe what I heard and saw on TV that day, it broke millions of people’s hearts. I think he’s going to be missed and there will never be any other like him.

As for the reason that I would love to visit Los Angeles the most is that I'm a big fan of Kobe Bryant. I wish I could have a chance to see him play but it never happened. Now that he has already retired, I still have this dream to go to the Staples Center and watch a live game of Los Angeles Lakers. I think that is going to be one of the happiest moments in my life.

地点类话题 sample answer

✧ A park

There are many beautiful tourist attractions in my country, especially in my hometown, Xinjiang, but I would like to talk about the Red Hill Park today. The Red Hill Park lies in the center of city, it's quite close to some office buildings and a stadium.

It's green everywhere in summer, there are a lot of trees and endless grass field. And also a lot of streams flowing across the park. Besides, you can find a tower when you climb onto the top of the hill, which is the landmark of our city, even the local TV stations use its image as their logo.

Ever since I was a little kid, me and my family would go to the Red Hill Park in both summers and winters. We always climb the hill and row the boat to set ourselves free from the pressure of our daily lives. And when we get tired, having a picnic would be a nice choice. On the other hand, it's a paradise for people to go ice skating in winters. It's like a magnet attracting millions of people flooding here for enjoying the outdoor activities in the freezing seasons.

And in my point of view, despite all the unforgettable views and all the joyful activities, the main reason that I like to go to the Red Hill Park in the holidays is that it's not very far from where I live. It only takes me 15 minutes to walk there.

In addition, as a student, I'm not that loaded financially, and a Red Hill Park trip isn't going to cost too much, I guess that's one of the reasons that I love to go there too.

✧ A city

If there is one city that I would love to visit in the future, it must be Los Angeles. Actually I know an interesting fact about it, the name of that city is not English but Spanish which means ‘those angels’. That’s why Los Angeles is also known as ‘the city of angels’ and there are a great number of Latins living there nowadays.

Los Angeles is located in the west coast of America and it is the major city of the state of California. I have never been to the city, but I saw some pictures of the beautiful beaches and palm trees which really attracted me a lot. A few friends of mine are living in Los Angeles, they often send me some pictures of the attractions in the city, it makes me want to be there more eagerly.

The main reason that I want to visit Los Angeles is that I’m a big fan of Kobe Bryant. I wish I could have a chance to see him play but it never happened. Now that he has already retired, I still have this dream to go to the Staples Center and watch a live game of Los Angeles Lakers. I think that is going to be one of the happiest moments in my life.

✧ **A happy event**

I want to talk about my cousin's wedding for this topic. Me and my cousin grew up together, so we are really close to each other. That's why I was quite excited about his wedding as well.

The wedding was held in a fancy hotel which was located in the heart of city, quite close to a park and CBD. Almost every one of our family and friends came to the wedding, people were dressed up and they couldn't wait to see the bride and groom.

After a while, the wedding began, when I saw my cousin holding his wife's hand and walking down the isle, I was truly happy for them and my tears almost came to my eyes. They stood on the stage and looked at each other with great affection. After giving their vows to each other, they exchanged the rings that symbolized their love.

Later on, they walked down to the guests' seats and started toasting to their family and friends. All the guests stood up, welcomed them and gave them sincere blessings while tasting the quality wine.

Seeing them standing so happily beside each other made me realize the meaning of marriage. Marriage is a turning point in one's life which brings many changes and responsibilities with it. From the bottom of my heart, I wish that they could have a loving and happy life forever.

✧ A trip

I remember when I graduated from the university, some of my classmates came to a decision to visit the Kanas Lake on a road trip. Before the trip, everyone was assigned with certain tasks, mine was downloading some music for us to listen on the road.

We started our trip on a fine Friday morning, some of the boys took turn to drive and others just chatted and sang along with the radio in the car. Every now and then, we stopped by and appreciated the views along the road. Of course, taking some pictures to capture that beautiful moment was absolutely a must do.

After 9 hours' driving, we finally arrived at our destination. The sky was extremely blue and the lake was shining under the sun, we finally got ourselves away from the city crowd. We put up our tents first and prepared for lunch by ourselves. Even though the whole process was not as smooth as we expected, when we finally had a taste of the food we made, we were actually quite satisfied with it.

Then it was time for climbing the mountain, at the middle of it, I felt really tired and didn't want to continue. But my friends encouraged me a lot and assisted me to climb onto the peak of the mountain. When I saw those beautiful views from the top, I felt that all the efforts were worth it. That also made me realize that most of the things we desire in life are hard to get but truly worth fighting for.

I think the trip had given us a chance to strengthen our friendship before we left for different places after the graduation, it will definitely be a memory of life.

物品类话题 sample answer

✧ A gift

Well, I still remember that I got my first smart phone when I turned 19 years old. My father gave it to me for celebrating my first part time job. It was not quite expensive but it still made a huge difference.

It was a NOKIA E63 with a whole keyboard, I could not get used to it when I just started using the phone, but it only took a few days for me to type as fast as before. Despite the use of keeping in touch with the people around me through calling and texting, the phone was equipped with many incredible functions as well. For instance, I am crazy about taking pictures, I love capturing the beautiful moments in my life. The phone had decent pixel so that I didn't have to borrow my father's heavy camera when it came to some special occasions like my birthday, campus Olympic and stuff.

Another wonderful function is that I could start online pay with this phone. All I neededto do was connecting my bank account with my phone, and I didn't have to take cash and credit cards with me any more. No matter where I went, I could just pay the bills with my phone and it was absolutely the best thing for me since I hated putting all those changes in my pockets, it's really easy to lose them.

I stopped using that phone a few years ago, but the first one is always the one that impressed me the most, and since it was the last phone that I needed my father to buy me, it was also kind of a connection between me and him I guess.

- ✓ Your first mobile phone.
- ✓ Something you have that you want to replace.
- ✓ Something you lost which is important to you.

✧ A second foreign language

If I have to choose a language that I would like to learn in the future, Spanish is definitely the first thing that comes to my mind which I have been intending to learn for a long time.

I still remember the first time I heard Spanish was from a song called "La isla bonita", which means the beautiful island, I was truly attracted by the melody and the lyrics of the song even though I couldn't even understand at that time. Since then, I started to listen to a lot of Spanish songs and watch some Spanish movies, I was almost addicted to its amazing intonation and pronunciation, no wonder people regard Spanish as the language of God.

Well, actually I have already started learning Spanish by myself. I bought some vocabulary books and downloaded a few apps on my phone to learn from the very basic things, but soon I realized that it was more than I could teach myself. Especially when it came to verbs, there were too many forms to master

properly without any instructions, it gradually made me confused. Plus, there weren't any native speakers around me, I had nobody to practice with. Therefore, my plan of learning Spanish didn't go well like I expected.

Another reason that I would love to learn Spanish is that it is also a world wide language besides English, if I can ever have a chance to visit some of my favorite American countries like Mexico and Colombia, Spanish will become extremely useful.

Well, I really hope that some day I could have the opportunity to take a Spanish course and learn from a qualified teacher. I'm aware of the fact that there will be many difficulties during the process, but I believe where there is a will, there is a way.

- Agreeing&Disagreeing
- Advantages&Disadvantages
- Proposing Solutions to Problems

除此以外还有

- similarity & difference
- Changes
- Importance
- Cause & effect
- 争议性话题
- 普遍情况...

Part 3 Giving&Supporting Opinions

Questions like:

- Do you think old people like changes?
- Do you think it is good to have only one child in the family?
- Do you think it is suitable to delay the retiring age?

✓ **Answer Logic 1: Introduce and state your opinion clearly and concisely.**

- Language Point 1: Use introducing opinion phrases like a native.
- Examples: I strongly believe that X is important…

  Certainly! I think that X plays a significant role...

✓ **Answer Logic 2: Support your opinion with reasons and one or two examples.**

- Language Point 2: Use phrases to state why you believe something.
- Examples: ... it's beneficial for people to do sth.

  X can provide many chances of...

✓ **Answer Logic 3: Frame your answers with good cohesion and logic.**

- Language Point 3: Use terms and techniques for supporting opinions.
- Examples: For example, X is a major part of people's lives.
  According to research, 7 in 10 men are not willing to change.

✧ **Do you think old people like changes?**

Absolutely not! Unlike young people who need to keep up with the world and adapt a lot, life of old people is less competitive. They can still enjoy the rest of their lives without any changes. Besides, I believe that it takes more time for old people to accept new things, which can be a waste of time since it doesn't have many influences on them. In this case, old people would love to do something they couldn't do before because of the busy schedule such as spending more time with their family and visiting some fancy places in the world.

Part3 Agreeing&Disagreeing

Questions like:

- Do you agree that all news on the Internet is unreliable?
- Do you agree or disagree that parents should decide what their sons or daughters study in university?
- Are you in agreement with the opinion that advertising is all bad and untrustworthy?

✓ **Answer Logic 1: Decide if you agree, partially agree or totally disagree with the question.**

- Language Point 1: Use agreement phrases
- Examples: I totally agree with that!
  I completely agree with this.

✓ **Answer Logic 2: State the extent to which you agree or disagree**

- Language Point 2: Use total or partial disagreement phrases
- Examples: I can agree with you to a point, but, I don't agree that…
  I can see what you mean, but…

✓ **Answer Logic 3: Explain why you agree or disagree.**

- Language Point 3: Use cause and effect logic to support your opinion
- Examples: I can't agree, because if we do …, then … might happen…
  If people continue to do … then it could be harmful…

✧ **Do you agree or disagree that parents should decide what their sons or daughters study in university?**

I absolutely disagree that young people should not be allowed to make their own decisions about what they study. Many students end up getting bored, frustrated and not performing well, because they are pushed to do a major that they don't like and are not good at! However, I agree to a certain extent that young people are not always very good at knowing what to decide, and may not have enough life experience to make wise decisions. So, I do think that parents should play a role in helping young people choose which subject to study at university.

Part3 Advantages&Disadvantages

Questions like:

- What are the advantages of technological advances for societies today?
- What are the advantages and the drawbacks of choosing a job because you really like it, even though it might not pay very well?
- Tell me some of the benefits of speaking a foreign language?

✓ **Answer Logic 1: List the advantages, disadvantages, or both, depending on which the examiner asks.**

- Language Point 1: Use introducing advantages phrases.
- Examples: One of the good things about…
  One of the main benefits of…

✓ **Answer Logic 2: Make sure you mention no less than 2 examples.**

- Language Point 2: Use positive adjectives.

- Examples: It makes public transport more convenient.
  It's a very well-designed device.

✓ **Answer Logic 3: Describe why they're good or bad**

- Language Point 3: Use negative adjectives.
- Examples: It is very unhealthy for young people.
  The technology is very low-quality.

✧ **What are the advantages of technological advances for societies today?**

Well, I think the benefits of technological developments are quite obvious: look at the way my country has moved forward in the past 30 or 40 years. We've seen an incredible subway system in the capital city, thousands of new roads, advances in communications networks, to name just a few examples. Globally, we have all seen international business grow through improved Internet communications, computers and mobile devices are so much more practical, user-friendly and time-saving for everyone to use. Life is much more convenient than ever before.

Part3 Proposing Solutions to Problems

Questions like:

- What challenges or problems might people face travelling from place to place in your country?
- What kind of problems with service do people often encounter where you come from?
- What are the main environmental issues today and how can we solve them?

✓ **Answer Logic 1: Identify problems**

- Language Point 1: Use identify problems phrases and reasons for them.
- Examples: One major concern is getting kids to do homework.
  The biggest problem in my country is…

✓ **Answer Logic 2: Suggest solutions**

- Language Point 2a: Use intro phrase with could / should.
- Examples: I guess they could plant more trees.
  I believe the authorities should protect animals more.

- Language Point 2b: Introducing solutions phrases
- Examples: I guess we could try harder to recycle more plastic.
  They should make more effort to control traffic.

✓ **Answer Logic 3: Propose solution actions**

- Language Point 3: Use expressing definite actions phrases.
- Examples: …they must try to get rid of bullying it schools.
  …we should clean up the rivers and seas

✧ **What challenges or problems might people face travelling from place to place in the country?**

Two major problems immediately come to mind! It's really hard to get tickets for the train before or during national holidays because the tickets get sold out quickly. Also, if people do manage to get tickets then the transport is unbelievably crowded. These problems are mainly due to the huge population in my country. It's not easy for the authorities to solve his problem, to be honest. I guess they could make sure that there are more trains in service at these times of year. Besides, I think we, customers, should guarantee that we plan our trips and book tickets well in advance!
