

# **IELTS writing task 1**

## **Lesson 1:Course aims**

- methods and techniques
- break the task into parts
- types of question

# IELTS writing task 1

## Remember

The task is to describe  
what you see. Write a report.  
Don't give opinions.

# IELTS writing task 1

## Remember

No conclusion.

Instead write a summary  
(the overview).

# Question type

## 问题类型

1. Line graph 线图

2. Bar Chart 柱图

3. Pie chart 饼图

4. Table 表格

5. Diagram-Comparing 地图

6. Diagram-Processing 流程图

# Question type

## 问题类型

**Personal savings as a percentage of personal income**

| Countries | 1989 | 1999 | 2009 |
|-----------|------|------|------|
| Mexico    | 5.6  | 11.5 | 19   |
| France    | 18.7 | 12.5 | 13.6 |
| Germany   | 13.8 | 13.8 | 11.8 |
| Italy     | 29.5 | 17.6 | 11.4 |
| Japan     | 17.6 | 12.1 | 13.6 |
| UK        | 9.2  | 8.2  | 11.1 |
| USA       | 8.2  | 5.5  | 4.0  |

### 特定点线条的比较 (details)

- 选择**主要信息**
- 每条线至少写一个信息

# Electricity Production in France by Source (TW-h)

# Paragraph Structure 段落结构

## 4 paragraphs 四段式

1.Introduction 开头段

2.Overview 综述段

3.Details 细节

3.Details 细节

# Introduction-paraphrase the question

## 开头段-改写题目

- *The graph below shows electricity production (in terawatt hours) in France between 1980 and 2012.*

# Introduction-paraphrase the question

## 开头段-改写题目

- *The graph below shows electricity production (in terawatt hours) in France between 1980 and 2012.*
- The line graph compares the amount of electricity produced in France using four different sources of power over a period of 32 years.

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

Electricity Production in France by Source  
(TW-h)

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

- It is clear that nuclear power was by far the most important means of electricity generation over the period shown. Renewables provided the lowest amount of electricity in each year.

# Details-2 paragraphs, compares the lines

## 主体段-2段, 比较线条

Electricity Production in France by Source  
(TW-h)

## Paragraph 3

① In 1980, thermal power stations were the main source of electricity in France, generating around 120 terawatt hours of power. ② Nuclear and hydroelectric power stations produced just under 75 terawatt hours of electricity each, and renewables provided a negligible amount. ③ Just one year later, nuclear power overtook thermal power as the primary source of electricity

# Important tip when describing numbers

## 描述数字的注意事项

- You **can** 't write:

Nuclear was 75 terawatt hours of electricity.

Nuclear produced 75 terawatt hours of electricity.

- You **must** write:

Nuclear power was used to produce 75 terawatt hours of electricity.

Nuclear power stations produced 75 terawatt hours of electricity.

# Paragraph 4

**Electricity Production in France by Source  
(TW-h)**

## paragraph 4

① Between 1980 and 2005, electricity production from nuclear power rose dramatically to a peak of 430 terawatt hours. ② By contrast, the figure for thermal power fell to only 50 terawatt hours in 1985, and remained at this level for the rest of the period. ③ Hydroelectric power generation remained relatively stable, at between 50 and 80 terawatt hours, for the whole 32-year period, but renewable electricity production saw only a small rise to approximately 25 terawatt hours by 2012.

**Vocabulary:** paraphrasing,  
comparing, describing changes

- the amount of electricity produced
- source of /provided/generating
- means of electricity generation
- over a period of/over the period shown
- by far the most important
- a negligible amount
- nuclear power overtook thermal power
- as the primary source of electricity
- rose dramatically to to a peak of
- by contrast
- the figure for
- remained at this level,remained stable
- saw only a small rise

# IELTS writing task1

3.Details 细节

3.Details 细节

# Introduction-paraphrase the question

## 开头段-改写题目

*The chart below shows global sales of the top five mobile phone brands between 2009 and 2013.*

# Introduction-paraphrase the question

## 开头段-改写题目

- *The chart below shows global sales of the top five mobile phone brands between 2009 and 2013.*
- The bar chart compares the number of mobile phones sold worldwide by the five most popular manufacturers in the years 2009, 2011 and 2013.

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

Global mobile phone sales by brand

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

- It is clear that Nokia sold the most mobile phones between 2009 and 2011, but Samsung became the best selling brand in 2013. Samsung and Apple saw the biggest rises in sales over the 5-year period.

# Details-2 paragraphs, compares the bars

## 主体段-2段, 比较条形

Global mobile phone sales by brand

## Paragraph 3

① In 2009, Nokia sold close to 450 million mobile phones, which was almost double the number of handsets sold by the second most successful manufacturer, Samsung. ② Over the following four years, however, Nokia's sales figures fell by approximately 200 million units, whereas Samsung saw sales rise by a similar amount. ③ By 2013, Samsung had become the market leader with sales reaching 450 million units.

## Paragraph 3

① In 2009, Nokia sold close to 450 million mobile phones, which was **almost double** the number of handsets sold by the **second most successful** manufacturer, Samsung. ② Over the following four years, however, Nokia's sales figures fell by approximately 200 million units, **whereas** Samsung saw sales rise by a similar amount. ③ By 2013, Samsung **had become the market leader** with sales reaching 450 million units.

## Paragraph 3

① In 2009, Nokia sold close to 450 million mobile phones, which was almost double the number of handsets sold by the second most successful manufacturer, Samsung. ② Over the following four years, however, Nokia's sales figures fell by approximately 200 million units, whereas Samsung saw sales rise by a similar amount. ③ By 2013, Samsung had become the market leader with sales reaching 450 million units.

# Paragraph 4

Global mobile phone sales by brand

## Paragraph 4

① The other three top selling mobile phone brands between 2009 and 2013 were LG, ZTE and Apple. ② In 2009, these companies sold around 125 million, 50 million and 25 million mobile handsets respectively, but Apple overtook the other two vendors in 2011. ③ In 2013, purchases of Apple handsets reached 150 million units, while LG saw declining sales and the figures for ZTE rose only slightly.

## paragraph 4 comparisons, changes over time

① The other three top selling mobile phone brands between 2009 and 2013 were LG, ZTE and Apple. ② In 2009, these companies sold around 125 million, 50 million and 25 million mobile handsets respectively, but Apple overtook the other two vendors in 2011. ③ In 2013, purchases of Apple handsets reached 150 million units, while LG saw declining sales and the figures for ZTE rose only slightly.

## paragraph 4 comparisons, changes over time

① The other three top selling mobile phone brands between 2009 and 2013 were LG, ZTE and Apple. ② In 2009, these companies sold around 125 million, 50 million and 25 million mobile handsets respectively, but Apple overtook the other two vendors in 2011. ③ In 2013, purchases of Apple handsets reached 150 million units, while LG saw declining sales and the figures for ZTE rose only slightly.

**Vocabulary:** paraphrasing,  
comparing, describing changes

- sold worldwide
- sales figures, purchases
- most popular, best selling brand, top selling
- second most successful manufacturer
- market leader
- mobile phones, handsets, units
- brands, manufacturers, companies, vendors
- saw the biggest rises, saw a declining sales
- close to, almost, approximately, around
- double the number
- rise by a similar amount
- respectively
- overtook the other two vendors

3.Details 细节

3.Details 细节

# Introduction-paraphrase the question

## 开头段-改写题目

*The charts below show household spending patterns in two countries between 1980 and 2008.*

# Introduction-paraphrase the question

## 开头段-改写题目

- *The charts below show household spending patterns in two countries between 1980 and 2008.*
- The pie charts compare five categories of household expenditure in the UK and New Zealand in the years 1980 and 2008.

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

- It is noticeable that the proportion of spending on food and drink fell in both countries over the 28-year period, while spending on utility bills rose. Also, UK residents spent a significantly larger percentage of their household budgets on leisure than their New Zealand counterparts.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 3

In 1980, 29% of an average New Zealand household budget went on food and drink, while the equivalent figure for a UK home was 23%. By 2008, expenditure on food and drink had fallen by 4% in New Zealand, and by a full 10% in the UK. By contrast, both countries saw an increase in expenditure on utility bills for the average home, from 27% to 31% in New Zealand and from 26% to 28% in the UK.

# Paragraph 4

## Paragraph 4

Leisure activities accounted for the highest proportion of UK household spending in both years, but only the third highest proportion in New Zealand. In fact, in 2008, New Zealanders spent only half as much in relative terms on recreation (17%) as UK residents (34%). In both countries, transport costs and other costs took roughly 15% and 10% of household budgets respectively

# Tips

- 不要单独描述国家
- 不要单独描述某一年
- 把国家和年份一起比较
- 每个类别都要提及
- 按类别分组 (2组)
- “other” 组要写
- 不要写Leisure was 34%.
- Households spent 34% of their money on leisure.

**Vocabulary:** paraphrasing,  
comparing, describing changes

- spending,expenditure,spent,costs
- proportion of spending
- percentage of household budget
- the equivalent figure for a UK home
- fell,rose,saw an increase in
- by 2008,expenditure had fallen
- spent a significantly larger percentage
- than their New Zealand counterparts
- 29% of an average household budget went on
- while,by contrast
- leisure accounted for the highest proportion
- spent half as much in relative terms
- recreation

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

It is clear that France was the world's most popular tourist destination in the years 2012 and 2013. However, the USA earned by far the most revenue from tourism over the same period.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

| Country | Number of tourists, 2012 (millions) | Number of tourists, 2013 (millions) | Tourist spending, 2012 | Tourist spending, 2013 |
|---------|-------------------------------------|-------------------------------------|------------------------|------------------------|
| France  | 83.0                                | 84.7                                | \$53.6 billion         | \$56.1 billion         |
| USA     | 66.7                                | 69.8                                | \$126.2 billion        | \$139.6 billion        |
| Spain   | 57.5                                | 60.7                                | \$56.3 billion         | \$60.4 billion         |
| China   | 57.7                                | 55.7                                | \$50.0 billion         | \$51.7 billion         |
| Italy   | 46.4                                | 47.7                                | \$41.2 billion         | \$43.9 billion         |

## Paragraph 3

In 2012, 83 million tourists visited France, and the USA was the second most visited country, with 66.7 million tourists. Spain and China each received just under 58 million visitors, while Italy was ranked fifth with 46.4 million tourists. 2013 saw a rise of between 1 and 4 million tourist visits to each country, with the exception of China, which received 2 million fewer visitors than in the previous year.

# Paragraph 4

| Country | Number of tourists, 2012 (millions) | Number of tourists, 2013 (millions) | Tourist spending, 2012 | Tourist spending, 2013 |
|---------|-------------------------------------|-------------------------------------|------------------------|------------------------|
| France  | 83.0                                | 84.7                                | \$53.6 billion         | \$56.1 billion         |
| USA     | 66.7                                | 69.8                                | \$126.2 billion        | \$139.6 billion        |
| Spain   | 57.5                                | 60.7                                | \$56.3 billion         | \$60.4 billion         |
| China   | 57.7                                | 55.7                                | \$50.0 billion         | \$51.7 billion         |
| Italy   | 46.4                                | 47.7                                | \$41.2 billion         | \$43.9 billion         |

## Paragraph 4

Spending by tourists visiting the USA increased from \$126.2 billion in 2012 to \$139.6 billion in 2013, and these figures were well over twice as high as those for any other country. Spain received the second highest amounts of tourist revenue, rising from \$56.3 billion to \$60.4 billion, followed by France, China and Italy. Interestingly, despite falling numbers of tourists, Chinese revenue from tourism rose by \$1.7 billion in 2013.

**Key skill:** selecting information

***The table below shows statistics about the top five countries for international tourism in 2012 and 2013.***

| <b>Country</b> | <b>Number of<br/>tourists, 2012<br/>(millions)</b> | <b>Number of<br/>tourists, 2013<br/>(millions)</b> | <b>Tourist<br/>spending,<br/>2012</b> | <b>Tourist<br/>spending,<br/>2013</b> |
|----------------|----------------------------------------------------|----------------------------------------------------|---------------------------------------|---------------------------------------|

- *The bar chart below shows the numbers of men and women attending various evening courses at an adult education centre in the year 2009. The pie chart gives information about the ages of these course participants.*

# Introduction-paraphrase the question

## 开头段-改写题目

- *The bar chart below shows the numbers of men and women attending various evening courses at an adult education centre in the year 2009. The pie chart gives information about the ages of these course participants.*
- The bar chart compares the numbers of males and females who took four different evening classes in 2009, and the pie chart shows the age profile of these attendees.

# Overview-2 sentences, 2 main points

综述段-2句话, 2个要点

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

It is clear that significantly more women than men attended evening classes at the education centre. We can also see that evening courses were much more popular among older adults.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 3

According to the bar chart, drama, painting and language courses all attracted more women than men to the education centre in 2009. Language classes had the highest number of participants overall, with 40 female and 20 male students, while painting was a popular choice among both genders, attracting 30 female and 25 male attendees. The only course with a higher number of males was sculpture, but this course was taken by a mere 15 people in total.

## Paragraph 3

According to the **bar chart**, drama, painting and language courses all attracted **more women than men** to the education centre in 2009. Language classes had the highest number of participants overall, with **40 female and 20 male** students, while painting was a popular choice among **both genders**, attracting **30 female and 25 male** attendees. The only course with a higher number of males was sculpture, but this course was taken by a mere **15** people in total.

# Paragraph 4

## Paragraph 4

Looking at the age profile pie chart, we can see that the majority of people attending evening lessons were over 40 years of age. To be precise, 42% of them were aged 50 or more, and 26% were aged between 40 and 49. Younger adults were in the minority, with only 11% of students aged 20 to 29, and only 5% aged under 20.

## Paragraph 4

Looking at the age profile pie chart, we can see that the majority of people attending evening lessons were over 40 years of age. To be precise, **42%** of them were aged 50 or more, and **26%** were aged between 40 and 49. Younger adults were in the minority, with only **11%** of students aged 20 to 29, and only **5%** aged under 20.

**Vocabulary:** paraphrasing,  
comparing, ~~describing changes~~

- attending courses,who took classes
- participants,attendees,students
- males and females
- courses attracted more women
- a popular choice among both genders
- significantly more,higher,highest
- had the highest number,with (+number)
- was taken by a mere 15 people
- According to the bar chart,
- Looking at the age profile pie chart,
- the majority of people
- were in the minority
- To be precise

## 开头段-改写题目

- *The diagrams\* below show how glass containers, such as bottles, are produced and recycled.*
- The first flow diagram illustrates the process of glass container production, and the second diagram shows steps in the process of recycling used glass.

*The diagrams\* below show how glass containers, such as bottles, are produced and recycled.*

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

We can see that glass is made using three main raw materials, and that the manufacturing process consists of four distinct stages. It requires five steps to turn used glass into new glass products.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 3

At the first stage in the production of glass, sand, soda ash, limestone and other chemicals are mixed together. Next, this mixture is heated in a glass furnace at approximately 1500°C to produce molten glass. The molten glass can then be shaped, by blowing, to create the end products, namely glass containers.

## Paragraph 3

At the first stage in the production of glass, sand, soda ash, limestone and other chemicals are mixed together. Next, this mixture is heated in a glass furnace at approximately 1500°C to produce molten glass. The molten glass can then be shaped, by blowing, to create the end products, namely glass containers.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 4

Glass recycling begins with the collection of used glass products. The collected glass is sorted according to its colour, and then washed in order to remove any impurities. At the fourth stage of recycling, the glass is crushed and melted, and the resulting molten glass can finally be moulded to create new items.

## Paragraph 4

Glass recycling begins with the collection of used glass products. The collected glass is sorted according to its colour, and then washed in order to remove any impurities. At the fourth stage of recycling, the glass is crushed and melted, and the resulting molten glass can finally be moulded to create new items.

## Paragraph 4

Glass recycling begins with the collection of used glass products. The collected glass is sorted according to its colour, and then washed in order to remove any impurities. At the fourth stage of recycling, the glass is crushed and melted, and the resulting molten glass can finally be moulded to create new items.

# **Vocabulary: paraphrasing, steps, passive verbs**

- steps /stages in the process of
- consists of four distinct stages
- it requires five steps
- raw materials,end products
- production,manufacturing
- turn used glass into new products
- at the first stage,next,then,begins with
- are mixed,is heated,can be shaped
- is sorted according to
- can be moulded to create
- are mixed →this mixture
- collection→this collected glass
- is melted→this resulting molten glass

3.Details 细节

# Introduction-paraphrase the question

## 开头段-改写题目

- *The diagrams below show the existing ground floor plan of a house and a proposed plan for some building work.*

# Introduction-paraphrase the question

## 开头段-改写题目

- *The diagrams below show the existing ground floor plan of a house and a proposed plan for some building work.*
- The two pictures compare the current layout of the ground floor of a house with a plan to redesign the same living space.

***The diagrams below show the existing ground floor plan of a house and a proposed plan for some building work.***

**Key**

- D internal door
- W internal wall
- S storage under stairs
- K kitchen furniture
- ↑ entrance door

# Overview-2 sentences, 2 main points

## 综述段-2句话, 2个要点

We can see that the new design proposal involves making a number of changes to the ground floor of the house, mainly in the central hall area. There are no plans to change external walls or entrances.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 3

The most noticeable change from the existing to the proposed floor plan is that there will no longer be a separate hall area when the building work has been done. This will be achieved by removing the internal wall and door between the hall and living room, along with the current staircase and under-stair storage cupboard. With no separate hall area, the proposed living room will also contain the staircase to the first floor.

# Details-2 paragraphs

## 主体段-2段 详细描述概述段信息

## Paragraph 4

To replace the current straight staircase, a new set of winding stairs will be installed in the corner of the living room. The internal door between the hall and kitchen will also be replaced with double doors connecting the kitchen with the new living room. Finally, the planned building work will also include the installation of some kitchen furniture.

**Vocabulary:** paraphrasing, verbs,  
description of changes

- existing plan→current layout
- proposed plan→plan to redesign
- design proposal,planned building work
- there will no longer be
- this will be achieved by removing
- will also contain,will also include
- will be installed,will be replaced
- the design proposal involves
- when the building work has been done
- living space,central hall area,staircase
- under-stair storage cupboard
- a new set of winding stairs
- the installation of some kitchen furniture
